

MONDAY, OCTOBER 5, 2015

BANFF PRE-MEETING: PRECISION DIAGNOSTICS IN TRANSPLANTATION - MOLECULAR PATHOLOGY (MORNING SESSION) GRAND BALLROOM AB + PASSAGE (MODERATORS: ALEXANDRE LOUPY, MICHAEL MENDEL)		
Start	End	Description
08:00	08:15	Alexandre Loupy, Michael Mengel Introduction and Objective: Consensus in Molecular Transplant Diagnostics
08:15	08:45	Philip Halloran Molecular Assessment and Landscape of ABMR in Kidney Transplants
08:45	09:15	Enver Akalin Clinical and Molecular Significance of Microvascular Inflammation in Kidney Allografts
09:15	09:45	Jeff Reeve Molecular Assessment of TCMR, Mixed Rejection & Borderline Lesions
09:45	10:15	Minnie Sarwal A Cross Organ Common Immune Module for Graft Rejection
		<i>Coffee Break</i>
10:30	11:00	Michael Mengel Molecular Assessment of ABMR in Heart Transplants
11:00	11:30	Daniel Salomon What's New in Non-Invasive Biomarkers: Blood
11:30	12:00	Thangamani Muthukumar What's New in Non-Invasive Biomarkers: Urine
LUNCH SYMPOSIUM: ANTI-GRAFT ANTIBODIES IN TRANSPLANTATION: IMPROVING THE GOLD STANDARD, IMPLEMENTING COMPLEMENTARY APPROACHES AND MOVING BEYOND HLA (LUNCH PROVIDED WITH SUPPORT FROM ONE LAMBDA. A THERMOFISHER SCIENTIFIC BRAND.) GRAND BALLROOM AB + PASSAGE (MODERATORS: CARMEN LEFAUCHER, ANAT TAMBUR)		
Start	End	Description
12:00	12:30	Anat Tambur What's Hot - What's New in HLA Science: Take Home Messages from the 2015 ASHI
12:30	01:00	Adriana Zeevi An Overview of Laboratory Testing Methods in SOT: Value and Limitations
01:00	01:30	Peter Nickerson The Future of HLA: Eplet Mismatch to Improve Transplant Candidates Risk Assessment
BANFF PRE-MEETING: PRECISION DIAGNOSTICS IN TRANSPLANTATION - MOLECULAR PATHOLOGY (AFTERNOON SESSION) GRAND BALLROOM AB + PASSAGE (MODERATORS: ALEXANDRE LOUPY, MICHAEL MENDEL)		
Start	End	Description
01:30	02:00	Osmar Zaiane Insights of Big Data Analyses in the 21st Century of Biomedical Research
02:00	02:30	Kim Solez Bridge between Transplantation and Regenerative Medicine
02:30	03:00	Kim Solez for Doris Taylor Building New Hearts. Regenerative Medicine Becomes a Reality
		<i>Coffee Break</i>
03:30	04:00	Paul Keown Next Generation Sequencing: Applications in Transplant Diagnostics
04:00	04:15	Parmjeet Randhawa An example for Clinical Application - Next Generation Sequencing in Biopsies with Polyomavirus BK Nephropathy: Patient - specific TCR b utilization patterns and presence of unique T-cell clonotypes

TUESDAY, OCTOBER 6, 2015

CST BOARD MEETING PORT HARDY		
Start	End	Description
07:00	05:00	Closed Meeting
BANFF: SUMMARY OF PREMEETING, BANFF WORKING GROUPS RESULTS AND DIRECTIONS REGARDING BANFF CLASSIFICATION AMENDMENTS (CO-SPONSORED BY RENAL PATHOLOGY SOCIETY) GRAND BALLROOM AB + PASSAGE (MODERATORS: LORRAINE RACUSEN, KIM SOLEZ)		
Start	End	Description
08:00	08:15	Kim Solez, Lorraine Racusen Banff Meeting Intro
08:15	08:30	Kim Solez, Michael Mengel Annual Report from the Banff Foundation
08:30	08:45	Michael Mengel Summary of the Pre-Meeting
08:45	09:00	Parmjeet Randhawa Borderline/TCMR Working Group Update
09:00	09:15	Lynn Cornell Highly Sensitized Working Group Update
09:15	09:30	Banu Sis Molecular Group Update
09:30	09:45	Volker Nickeleit BKv Group Update
09:45	10:00	Helen Liapis Implantation Biopsy Working Group Final Report
		<i>Coffee Break</i>
10:30	10:45	Mark Haas The New Diagnostic Criteria for ABMR (Banff 2013): Remarks, Difficulties, Amendments?
10:45	11:00	Banu Sis What Criteria Should Apply to Isolated V Lesions and How To Update the Classification?
11:00	11:15	Volker Nickeleit Prospects for Modifying/Improving the Banff Criteria for Borderline and TCMR
11:15	11:45	M. Haas, B Sis, B Colvin Group Discussion
LUNCH SYMPOSIUM: mTORi IN SOLID ORGAN TRANSPLANTATION: NEW UNDERSTANDINGS, NEW DIRECTIONS AND ADVANCES (LUNCH PROVIDED WITH SUPPORT FROM NOVARTIS) GRAND BALLROOM AB + PASSAGE (MODERATORS: ALEXANDRE LOUPY, CHRISTOPHE LEGENDRE)		
Start	End	Description
12:00	12:20	Federico Oppenheimer Clinical Relevance of New Strategies Using Combined mTORi and Reduced CNI Regimens in Kidney Transplants
12:20	12:40	Guillaume Canaud mTORi for Preventing Antiphospholipid Syndrome Recurrence Post Kidney Transplantation
12:40	01:00	Luciano Potena mTORi Based Strategies for Preventing Chronic Heart Allograft Vasculopathy
BANFF KIDNEY CONCURRENT I: ANTIBODIES AND INJURY TO GRAFT ENDOTHELIUM AND EPITHELIUM GRAND BALLROOM AB + PASSAGE (MODERATORS: LYNN CORNELL, CANDICE ROUFOSSE)		
Start	End	Description
01:00	01:30	Christopher Bellamy Multiplex in situ phenotyping of macrophages in allograft biopsies
01:30	02:00	Roger Wiggins Podocyte Injury After Transplantation: Novel Insights

02:00	02:30	Candice Roufousse Significance of Double Contours and Peritubular capillary basement membrane multilayering in renal allograft biopsies
02:30	03:00	Robert Colvin The Pathology of Tolerance and ABMR: From Animal Model to Human Biopsies
		<i>Coffee Break</i>
03:30	04:00	Elaine Reed Anti-HLA Antibody Binding Trigger Endothelial Cell Signaling: Molecular Pathways and Functional Consequences
04:00	04:30	Annette Jackson Endothelial Cell Reactive Antibodies: Novel Antigenic Targets Associated With Microvascular Injury in Kidney Transplantation
04:30	05:00	Carmen Lefaucheur Endothelium and Transplant Arteriosclerosis from Heart to Kidney: Epidemiologic Demonstration
BANFF LIVER CONCURRENT I		
GRAND BALLROOM D (MODERATORS: JACQUELINE O'LEARY, MAX SMITH)		
Start	End	Description
01:00	01:30	Jake Demetris Welcome & Session Goals
01:30	02:00	Luis G. Hidalgo Eosinophils and NK cells in ADCC and Liver Injury
02:00	02:30	Christopher Bellamy Macrophages in Liver Allografts
02:30	03:00	Delsey Neil C4d TMA Concordance Study Results
		<i>Coffee Break</i>
03:30	04:00	Geoff McCaughan Liver Allograft Pathology After Effective Anti-HCV Therapies - Changes and Challenges
04:00	04:30	Arnaud Del Bello De Novo DSA: Clinical and Histopathological Manifestations
BANFF LUNG CONCURRENT: CHRONIC LUNG ALLOGRAFT DYSFUNCTION		
GULF ISLANDS BCD (MODERATORS: CAROL FARVER, DEAN W. WALLACE)		
Start	End	Description
01:00	01:30	Jamie Todd Clinical Features of Chronic Lung Allograft Dysfunction (CLAD)
01:30	02:00	David Hwang Pathophysiology of CLAD/RAS (Restrictive Allograft Syndrome)
02:00	02:30	Elizabeth Pavlisko Pathophysiology of CLAD/BOS (Bronchiolitis Obliterans Syndrome)
02:30	03:00	Rajan Saggarr Pathophysiology of CLAD/Chronic Vascular Changes
		<i>Coffee Break</i>
03:30	04:00	Carol Farver The Pathology of Antibody-Mediated Rejection in Pediatric Lung Transplantation
04:00	04:30	Nancy Reinsmoen HLA and Non-HLA Donor Specific Antibodies and Clinical Outcomes in Lung TX
04:30	05:00	Group Discussion
CNTRP (POSITIVE STUDY (PROJECT 6) MEETING)		
GRANVILLE		
Start	End	Description
12:30	05:00	<i>External Meeting</i>

CST RESEARCH FITS: PLANNING A CAREER IN ACADEMIC TRANSPLANT PROGRAMS		
ORCA (MODERATOR: JEFFREY SCHIFF)		
Start	End	Description
01:00	01:10	Jeffrey Schiff Opening Remarks
01:10	01:40	Alp Sener Starting a Basic Science Research Program
01:40	02:10	Christine Ribic Starting a Clinical Science Research Program
02:10	02:40	Jeffrey Schiff Creating a Teaching Dossier
02:40	03:00	A. Sener, C. Ribic, J. Schiff Panel Discussion
		<i>Coffee Break</i>
03:30	03:55	Breakout Session #1 with Transplant Program Directors
03:55	04:20	Breakout Session #2 with Transplant Program Directors
04:20	04:50	Panel Session with Program Directors
04:50	05:00	Jeffrey Schiff Closing Remarks
PROBE MEETING		
GALIANO		
Start	End	Description
04:00	05:30	<i>External Meeting</i>
SPONSOR COCKTAIL RECEPTION		
CONSTELLATION SUITE		
Start	End	Description
05:00	06:00	<i>By Invitation only</i>
CANADIAN PEDIATRIC GROUP BUSINESS MEETING & SESSION		
FINBACK (MODERATORS: AVIVA GOLDBERG, SEEMA MITAL)		
Start	End	Description
06:00	06:30	Aviva Goldberg Welcome and Introductions
06:30	07:00	Brendan Keating Discovering Genomic Underpinnings of Rejection and Complications in Transplantation
07:00	07:15	Chia Wei Teoh Trainee Abstract Award Presentation
07:15	07:30	Updates on Research Initiatives, New Collaborative Research
07:30	08:00	Business Meeting (Members only)
EXHIBIT HALL		
GRAND BALLROOM CD		
Start	End	Description
06:00	11:45	<i>Exhibitor Setup</i>

WEDNESDAY, OCTOBER 7, 2015

JOINT AST-BANFF-CST SYMPOSIUM GRAND BALLROOM AB + PASSAGE (MODERATORS: JIM ALLAN, STEVEN PARASKEVAS, KIM SOLEZ)		
Start	End	Description
07:00	07:20	Rob Fairchild Tests of T Cell Reactivity
07:20	07:40	Kathryn Tinckam Failure to Adopt: Screening for Donor Specific Antibodies
07:40	08:00	Robert Colvin Mixing mRNA and microscopes: The Biopsy with and without molecular diagnostics
08:00	08:20	Roslyn Mannon Is the Problem Failure to Demonstrate the Added Value of the Test(s) or a Lack of Therapeutics?
POSTER SETUP GRAND BALLROOM CD		
Start	End	Description
07:00	09:30	<i>Wednesday Poster Boards – Poster Setup</i>
JOINT PLENARY SESSION #1: FUTURE DIRECTIONS OF TRANSPLANTATION: EXPANDING THE DONOR POOL AND IMPLEMENTING NEW TECHNOLOGIES GRAND BALLROOM AB + PASSAGE (MODERATORS: JOSEPH KIM, GREG KNOLL)		
Start	End	Description
08:30	08:40	Steven Paraskevas, Kim Solez Presidents' Opening Remarks
08:40	09:05	John Gill Extending the donor pool: New registries, allocation, and policies: North American perspectives
09:05	09:25	Christian Jacquelin Extending the donor pool: New registries, allocation, and policies: European perspectives
		<i>Coffee Break among Posters</i>
10:00	10:25	Darren Freed Extending the Donor Pool II: Preservation Across Different Organs (Pulsatile Perfusion Devices)
10:25	10:50	Julie Ho Implementing Omics into Daily Practice: Taking the Road and the Lessons from Nephrology
PRESIDENTS' MEETING GULF ISLANDS BCD		
Start	End	Description
09:00	10:30	External Meeting
LEADING CLINICAL PRACTICES COMMITTEE MEETING GULF ISLANDS BCD		
Start	End	Description
11:00	12:00	External Meeting
JOINT ORAL ABSTRACT PRESENTATIONS - SESSION I GRAND BALLROOM AB + PASSAGE (MODERATORS: PROSANTO CHAUDHURY, ALEXANDRE LOUPY)		
Start	End	Description
11:00	11:10	Marion Rabant Heterogeneity of isolated v lesions in kidney transplantation
11:10	11:20	Darren Freed Ex vivo perfusion in a loaded state improves the preservation of donor heart function
11:20	11:30	Sacha De Serres Critical Appraisal of the New Banff Criteria for Chronic Antibody-Mediated Rejection in the Real Life Setting

11:30	11:40	Qianni Hu Mitochondrial Damage-Associated Molecular Patterns (MTDs) released from hepatic ischemia reperfusion induce inflammatory response
11:40	11:50	Alexandre HERTIG Markers of Endothelial-to-mesenchymal transition: evidence for Antibody-Endothelium interaction during antibody-mediated rejection
11:50	12:00	Anand Ghanekar Differentiation of Functional Cholangiocytes from Human Pluripotent Stem Cells for the Modeling of Biliary Disease
LUNCH SYMPOSIUM: COMPLEMENT-MEDIATED DISEASES IN RENAL TRANSPLANTS AND THEIR LINK TO ABMR (LUNCH PROVIDED WITH SUPPORT FROM ALEXION PHARMACEUTICALS) GRAND BALLROOM AB + PASSAGE (MODERATORS: KATHRYN TINCKAM)		
Start	End	Description
12:00	12:20	Christophe Legendre Targeting Complement in Recurrent Atypical Haemolytic Uraemic Syndrome
12:20	12:40	John Gill The Role of Complement and Complement Inhibition in Recurring Glomerulonephritis
12:40	01:00	Steven Sacks Targeting Complement for Preventing Delay Graft Function
CANADIAN KIDNEY TRANSPLANT WORKING GROUP BUSINESS MEETING GALIANO		
Start	End	Description
01:00	05:30	Closed Meeting (Members only)
CANADIAN LIVER TRANSPLANT NETWORK (CLTN) BUSINESS MEETING GALIANO		
Start	End	Description
01:00	05:30	Closed Meeting (Members only)
BANFF LIVER CONCURRENT II FINBACK (MODERATORS: CHRISTOPHER BELLAMY, STEFAN HUBSCHER)		
Start	End	Description
01:00	01:30	Stefan Hubscher Pathophysiologic Mechanisms of Liver Allograft Injury/Fibrosis
01:30	02:00	Sandy Feng Long-Term Follow-up and Weaning Immunosuppression in Pediatric Recipients: Factors Influencing the Graft
02:00	02:30	Jacqueline O'Leary Chronic Antibody-Mediated Rejection: Perspectives and Issues
		<i>Coffee Break among Posters</i>
03:30	05:00	Group Discussion
BANFF PANCREAS CONCURRENT I: UPDATE ON PANCREAS ALLOGRAFT PATHOLOGY ISSUES / II: ACCURATE DETERMINATION OF THE CAUSE OF GRAFT LOSS IN WHOLE PANCREAS TRANSPLANTS ORCA (MODERATORS: CINTHIA DRACHENBERG, JON ODORIC)		
Start	End	Description
01:00	01:25	Danniele Holanda Utility of Duodenal Cuff Biopsies for Diagnosis of Pancreas Rejection
01:25	01:50	Erik Larsson CMV Infection of the Duodenal Cuff in Whole Pancreas Allografts
01:50	02:15	Megan Troxell Pale Acinar Nodules and Other Peculiar Histological Findings in Pancreas Allografts
02:15	02:40	Hanneke de Kort Clinical and Diagnostic Issues Regarding Vascular Lesions in Pancreas Allografts
02:40	03:00	Maria Toniolo Clinical Impact of Performing Concurrent Pancreas-Kidney Allograft Biopsies
		<i>Coffee Break among Posters</i>

03:30	03:55	John Papadimitriou Morphological Spectrum of Lesions Associated with Graft Failure in Pancreas Transplants
03:55	04:20	David Klassen Graft Failure in Whole Pancreas and Islet Transplants: UNOS Perspective
04:20	04:45	Rainer Gruessner Clinical Aspects of Pancreas/Islet Failure
04:45	05:10	Steven Paraskevas Clinicopathological Algorithm for the Accurate Etiological Diagnosis of Graft Failure in Pancreas Transplants
05:10	05:30	Closing Comments, Future Plans, Group Discussion
BANFF HEART CONCURRENT I & II: IMPROVING HEART TRANSPLANT REJECTION DIAGNOSTIC SYSTEM: UNMET NEEDS, CURRENT LIMITATIONS, NEW IMPLEMENTATIONS AND FUTURE DIRECTIONS PAVILLION BALLROOM C (MODERATORS I: GERALD BERRY, LORI WEST; MODERATORS II: REX NEAL SMITH)		
Start	End	Description
01:30	01:50	Patrick Bruneval The Pathological Classification of Antibody-Mediated Rejection: Certainties, Uncertainties and Prospects for its Improvement
01:50	02:10	Adriana Zeevi DSA in Thoracic Transplant: Where Do We Stand?
02:10	02:35	Annalisa Angelini Microcirculation Injury in Acute and Chronic Heart Rejection
02:35	03:00	Elaine Reed Endothelial Cell in Cardiac AMR: Interplay Between Antibodies, Complement, and Leukocytes
		<i>Coffee Break among Posters</i>
03:30	04:00	Dylan Miller Modern Pathology of CAV in the Era of AMR
04:00	04:30	Thomas Thum MicroRNAs and Small Non-Coding RNA's in Heart Transplantation: Tissue and Sera
04:30	05:00	Scott Tebbutt Leukocyte Transcripts as Biomarkers in Cardiac Transplantation
05:00	05:30	Group Discussion
ALLIED HEALTH GROUP SESSION & BUSINESS MEETING PAVILLION BALLROOM D		
Start	End	Description
01:30	01:45	Janet Madill Welcome and Introductions
01:45	02:30	Sean Spina Technology in Clinical Practice. How the Digital Revolution is Affecting Patient Care.
02:30	03:00	Nancy Howes The TONE Program: The Transplant ONLINE Exercise Program. How Physiotherapists Can Use Technology to Promote Preoperative Exercise
		<i>Coffee Break among Posters</i>
03:30	04:10	Daniel Buchman The Illusion of Privacy
04:10	04:17	Tania Janaudis-Ferreira Physical Activity Participation in Solid Organ Transplant Recipients: What are the Barriers and Facilitators?
04:18	04:25	Natalia Liapounova Pediatric pre-transplant cognitive function, behavior problems and lung allocation system (LAS) scores.
04:26	04:33	Holly Mansell A qualitative analysis of pre-transplant educational needs from the post-transplant perspective

04:34	04:41	Tania Janaudis-Ferreira Changes in functional outcomes after an inpatient rehabilitation program for solid organ transplant recipients
04:45	05:20	Allied Health Business Meeting (Members only)
05:20	06:30	Networking Session with CANRESTORE
CANADIAN DONATION GROUP BUSINESS MEETING PAVILLION BALLROOM AB		
Start	End	Description
01:30	03:30	Closed Meeting (Members only)
POSTER DISMANTLE GRAND BALLROOM CD		
Start	End	Description
07:00	07:30	<i>Wednesday Poster Boards – Poster Dismantle</i>
OKTOBERFEST SOCIAL VANCOUVER ART GALLERY ROOFTOP		
Start	End	Description
07:30	11:00	Ticketed social event

JOINT POSTERS & EXHIBITS: AUTHOR PRESENTATIONS (WED 9:30AM) GRAND BALLROOM CD	
Alvita Chan	Impact of Social Determinants of Health on Liver Transplantation
Antoine Roux	DSA characteristics associated with antibody mediated rejection in Lung Transplantation.
Berna Yelken	The Effect of C1q Test Done Before Kidney Transplantation on Acute Rejections: Center Experience
Chee Loong Saw	Pattern of Pre- and Post-Transplant Anti-HLA Antibody Detection in Pediatric Renal Transplant Recipients
Isabelle Lapointe	Eplet Analysis Supports Easier Identification and Exclusion of Allele Specific HLA Antibodies
Joseph Kim	Early Hospital Readmissions Following Kidney Transplantation: A Systematic Review
Luis G. Hidalgo	A CASE OF HEART VALVE REPLACEMENT LEADING TO EXTENSIVE SENSITIZATION - AN EXAMPLE OF THE WORST HLA CLASS II TYPING FOR A TRANSPLANT RECIPIENT
Maria Picken	Adenovirus Infection in Kidney Transplant Recipients
María Toniolo	Simultaneous pancreas-kidney transplant: Histologic evaluation
Ngan Lam	Validation of Kidney Transplantation Using Administrative Data
Nicholas Dawson	DESIGN AND OPTIMIZATION OF MASS CYTOMETRY TO MEASURE IMMUNE RECONSTITUTION POST-HEMATOPOEITC STEM CELL TRANSPLANT
Patrick Luke	WARM BLOOD-BASED REPERFUSION WITH CORM-401 REDUCES ISCHEMIA REPERFUSION INJURY (IRI) IN AN EX-VIVO PORCINE MODEL OF THE DONATION AFTER CIRCULATORY DEATH KIDNEY DONOR
Renata Ponsirenas	Enhancing positive predictive values for antibody mediated rejection through improved antibody characterization
RK Sharma	Donor Specific Antibodies (DSA) in living related transplantation
Sait Sen	EVALUATION OF PATIENTS WITH ANTIBODY MEDIATED REJECTION AFTER KIDNEY TRANSPLANTATION
Tomokazu Shimizu	Subclinical tacrolimus nephrotoxicity in protocol biopsies obtained more than 5 years after renal allograft transplantation
Trana Hussaini	Investigating the Association between Hypomagnesaemia and Calcineurin Inhibitor Induced Nephrotoxicity in Liver Transplant Recipients: A Case-Control Study
Yasemin Ozluk	The efficacy of immunoadsorption in the treatment of late antibody mediated rejection

JOINT POSTERS & EXHIBITS: AUTHOR PRESENTATIONS (WED 3PM) GRAND BALLROOM CD	
Andre Teixeira	THE ROLE OF POSTREPERFUSION BIOPSIES IN LIVER TRANSPLANTATION; CORRELATION BETWEEN CLINICAL, LABORATORIAL AND HISTOPATHOLOGICAL FINDINGS
Bahman Afzali	From ultrastructure to molecular testing: Assessment of antibody-mediated tissue injury in human cardiac allograft biopsies
Berna Yelken	Protocol biopsy is very important for kidney graft survival in desensitize patients
Heather Stevenson	Isolated obliterative arteriopathy in liver allografts should prompt evaluation for underlying chronic antibody-mediated rejection
Johann Moritz Kath	Normothermic Ex Vivo Kidney Perfusion Represents a Novel Preservation Method for Heart Beating Donor Kidney Grafts
Marie-Chantal Fortin	Donors' and recipients' views on altruistic unbalanced paired kidney exchange
Maryam Demian	Higher Self Efficacy and Simplification of Dosing Regimen are Predictive of Better Medication Adherence in Adult Renal Transplant Recipients
Maud Racape	A NEW DIAGNOSTIC SCORE FOR MICROVASCULAR INFLAMMATION IN ANTIBODY MEDIATED REJECTION IN HEART TRANSPLANTATION
Medhat Askar	Comparison Between IgG and IgM De Novo Donor Specific HLA Antibody (dnDSA) Characteristics Among Patients with Symptomatic and Asymptomatic Antibody Mediated Rejection in Heart Transplant Recipients
Olusegun Famure	THE LONG-TERM CARE OF KIDNEY TRANSPLANT RECIPIENTS: WHAT IS THE ROLE OF THE GENERAL NEPHROLOGIST
Oyedele Adeyi	Active Sinusoidal Infiltrate and EBV Infection in Post-Liver Transplant Biopsies
RK Sharma	Loss of suppressive function of CD4+CD25+FOXP3+ T regulatory cells in renal patients with chronic allograft dysfunction in late post transplant period
Shirin Aladwan	ADVERSE SYMPTOMS OF IMMUNOSUPPRESSANTS: PILOT SURVEY OF SOLID ORGAN TRANSPLANT RECIPIENTS
Tahani Alamodi	KIDNEY TRANSPLANTATION IN A PEDIATRIC PATIENT WITH ATYPICAL HEMOLYTIC UREMIC SYNDROME AND A NOVEL C3 GENE VARIANT
Theone Paterson	Personality factors positively predict medication adherence as measured via self-report and tacrolimus blood level post-assessment.
Vanessa Michaud	Transition from pediatric to adult healthcare: Evaluation of the medical and psychosocial outcomes of a Young Adult Clinic for renal transplant recipients.
Yasemin Ozluk	The link between recurrent glomerular diseases and allograft rejection: Under immunosuppression

JOINT POSTERS & EXHIBITS: AUTHOR PRESENTATIONS (WED 6PM) GRAND BALLROOM CD	
Alison Gareau	Serum proteins are significantly upregulated in patients with clinical antibody-mediated rejection
Asami Takeda	Pathological diagnosis of subclinical chronic antibody-mediated rejection in kidney allografts with de novo positive donor-specific antibodies – usefulness of C4d positivity in glomerular capillaries
Berna Yelken	The impact of repeated allograft biopsies on indication of Eculizumab rescue treatment in patients with serious antibody mediated rejection
Bing Yang	PRE-EXISTING ANTI-LG3 ANTIBODIES AGGRAVATE RENAL ISCHEMIA-REPERFUSION INJURY AND CORRELATE WITH AN INCREASED RISK OF DELAYED GRAFT FUNCTION
Boris Gala-Lopez	Anti-aging Glycopeptide Protects Human Islets Against Tacrolimus-related Injury and Facilitates Engraftment
Daisuke Toki	Interstitial Fibrosis is the Critical Determinant of Impaired Renal Function in Transplant Glomerulopathy
Esme Dijke	Enhanced suppressive capacity of regulatory T cells (Tregs) expanded from human thymus in the presence of rapamycin.
Istvan Mucsi	Ethnicity as a potential barrier to pre-transplant evaluation completion in a Canadian setting
James Lan	Unambiguous HLA Genotyping using Long-Range PCR and Next-Generation Sequencing (NGS) on Buccal-Extracted DNA: Results from 4,000 Donor Recruitment Samples
Joseph Kim	Vitamin D Levels and Post-Transplant Diabetes Mellitus After Kidney Transplantation
Kasia Sablik	IVIG AND HIGH DOSE STEROID TREATMENT OF TRANSPLANT GLOMERULOPATHY EFFECTIVELY SLOWS PROGRESSION OF LOSS OF RENAL ALLOGRAFT FUNCTION
Minal Borkar	BK polyomavirus orchestrates renal fibrosis through epigenetic modulations and induces necroptosis in renal tubular cells
Patrick Luke	IMMUNOSUPPRESSIVE ACTIONS OF CARBON MONOXIDE RELEASING MOLECULE (CORM-401) ON TOLL-LIKE RECEPTORS AND RENAL ISCHEMIA REPERFUSION INJURY
Rahul Chanchlani	Are Hypomagnesemia and Hypokalemia Novel Risk Factors for New-Onset Diabetes in Pediatric Solid Organ Transplant Recipients
Renata Ponsirenas	Circulating anti-HLA IgG subclasses detected after transplantation indicate subclass switching during progression of antibody-mediated rejection
Sait Sen	THE EFFECT OF HYPERCALCEMIA ON TUBULOINTERSTITIAL CALCIFICATION OF THE ALLOGRAFT
Tomokazu Shimizu	Clinical and pathological analyses of chronic vascular rejection after kidney transplantation
Yasemin Ozluk	Retrospective analysis of glomerulitis scoring by the last (Banff 2013) criteria: A single center observation

JOINT POSTERS & EXHIBITS: AUTHOR PRESENTATIONS (WED 6:30PM) GRAND BALLROOM CD	
An-Hang Yang	The association of microvascular remodeling and expression of mesenchymal phenotypes in renal allografts with chronic active antibody-mediated rejection
Ana Konvalinka	Quantification of Angiotensin II Signature Proteins in Urine of Patients with Kidney Allograft
Berna Yelken	Are the characteristics of antibody mediated rejection predictive for the long term allograft survival?
Candice Roufosse	C4d positivity in renal biopsies without microcirculation inflammation or injury
Chia Wei Teoh	Mycophenolic acid levels are not associated with clinical adverse events at 3 months post-renal transplantation
Daniel Seron	Inflammation either associated or not with fibrosis at 6 week protocol biopsies is an independent predictor of 1 year DSA
Dima Kabbani	Vascular Jump Grafts in Liver Transplant: Do They Transmit Cytomegalovirus?
Harsharan Singh	Urinary Polyomavirus Haufen are Biomarkers for Polyomavirus Nephropathy: Mouse & Man & Proof of Concept
Holly Mansell	ELEVATED CIRCULATING INTERLEUKIN 33 LEVELS IN STABLE RENAL TRANSPLANT RECIPIENTS AT HIGH RISK FOR CARDIOVASCULAR EVENTS
Karen Sherwood	TOWARDS CLINICAL NGS HLA-TYPING: A PERFORMANCE COMPARISON OF NEXT-GENERATION SEQUENCING TECHNOLOGIES FOR DNA HLA TYPING IN A CLINICAL DIAGNOSTIC ENVIRONMENT
Maria Cristina Ribeiro de Castro	Microcirculation inflammation in early surveillance renal biopsy in sensitized patients did not correlate with graft outcome.
Melanie Dieude	Tissue injury enhances circulating levels of active proteasome and triggers anti-LG3 production
Muhtashim Mian	Evaluation of a Novel Global Immunity Assay to Predict Clinical Outcomes in Organ Transplant Recipients
Natalie Montwill	Iron-dependent ferroptosis mediates microvascular endothelial cell survival following cardiac allograft transplantation
Roslyn Mannon	The Missing Link in Kidney Allograft Loss: Renal Fibroblast Activation by Anti-Class I MHC Antibody
Sacha De Serres	Longitudinal Assessment of the Phenotype and Function of Monocytes in De Novo Kidney Transplant Recipients
Trana Hussaini	HCV Infection Interaction with Gender and Calcineurin Inhibitor Induced Chronic Renal Failure in Liver Transplant Recipients: A Case-Control Study
Walter Park	120 Protocol Renal Allograft Biopsies at 10 Years Suggest New "Causes" of Chronic Injury
Yasemin Ozluk	Microcirculation inflammation and arteriolar hyalinosis predict graft loss in renal transplants without extensive scarring

THURSDAY, OCTOBER 8, 2015

2015 STATUS REPORT ON ABMR (BREAKFAST PROVIDED WITH SUPPORT FROM ASTELLAS PHARMA INC.) GRAND BALLROOM AB + PASSAGE (MODERATORS: ED KRAUS, CHRIS WIEBE)		
Start	End	Description
07:00	07:20	Patricia Campbell Epidemiology of ABMR
07:20	07:40	Mark Haas Pathophysiology and Diagnostics of ABMR
07:40	08:00	Alex Loupy Risk Stratification and Disease State Assessment in ABMR
POSTER SETUP GRAND BALLROOM CD		
Start	End	Description
07:00	09:30	<i>Thursday Poster Boards – Poster Setup</i>
ALLIED HEALTH GROUP – CANRESTORE MEETING GULF ISLANDS BCD		
Start	End	Description
08:00	10:00	External Meeting
JOINT PLENARY SESSION #2: FROM BASICS TO THERAPEUTICS IN ABMR GRAND BALLROOM AB + PASSAGE (MODERATORS: HEINZ REGELE, PAUL KEOWN)		
Start	End	Description
08:00	08:30	Stuart Knechtle Improving Our Understanding of ABMR: What Are The Lessons From Non-Human Primate Models?
08:30	08:50	Nicole Valenzuela The Role of Macrophages in ABMR
08:50	09:10	Luis G. Hidalgo Targeting ADCC and NK Cells in ABMR
09:10	09:30	David Rush Clinical Relevance of Subclinical/Indolent Kidney Rejection Phenotypes
		<i>Coffee Break among Posters</i>
10:00	10:20	Denis Glotz What Are Our Surrogates for Treatment Efficacy in ABMR?
10:20	10:40	Stan Jordan Complement Blockade in ABMR: Results and Perspectives
10:40	11:00	Robert Montgomery Protocols for Preventing/Treating ABMR: Results and Perspectives
JOINT ORAL ABSTRACT PRESENTATIONS - SESSION II GRAND BALLROOM AB + PASSAGE (MODERATORS: JAG GILL, MICHAEL MENGEL)		
Start	End	Description
11:00	11:10	Jussi Tikkanen De novo DQ-donor-specific antibodies are associated with chronic lung allograft dysfunction after lung transplantation
11:10	11:20	Sarah Higgins Identifying the specific causes and the determinants of outcome in kidney recipients with Transplant Glomerulopathy: a multicenter study.
11:20	11:30	Caren Rose Should the Kidney Donor Risk Index (KDRI) be used to quantify deceased donor quality in Canada?

11:30	11:40	Babak Orandi Presentation and Outcomes of C4d-Negative Antibody-Mediated Rejection After Kidney Transplantation
11:40	11:50	Marie Achille The psychology and ethics of organ donation in the context of assisted suicide in Quebec.
11:50	12:00	Antoine Roux Lung transplantation outcome is mainly driven by antibody mediated rejection
LUNCH SYMPOSIUM: MINIMIZATION, COMPLIANCE AND ABMR (LUNCH PROVIDED WITH SUPPORT FROM ASTELLAS PHARMA INC.)		
GRAND BALLROOM AB + PASSAGE (MODERATORS: DANIEL SERON, TOM BLYDT-HANSEN)		
Start	End	Description
12:00	12:20	Chris Wiebe De novo DSA: Prevalence, Pathophysiology and Allograft Injury
12:20	12:40	Beth Foster Risk for ABMR in Adolescence: HLA-Matching, Recipient Age, and Compliance
12:40	01:00	Thomas Nevins Predictive Patterns of Early Medication Adherence in Renal Transplantation
BANFF KIDNEY CONCURRENT II: DONOR SPECIFIC ANTI-HLA MEDIATED ALLOGRAFT INJURY AND BEYOND HLA JUNIOR BALLROOM CD (MODERATORS: PATRICIA CAMPBELL, ALEX MAGIL)		
Start	End	Description
01:00	01:30	Mark Haas How Many ABMR Phenotypes Do Actually Exist? Consequences for Patient Care
01:30	02:00	Adriana Zeevi Complement Binding Capacity of Anti HLA Antibodies: Multiorgan Clinical Relevance
02:00	02:30	Carmen Lefaucheur Anti HLA DSA IgG Subclasses and Distinct Allograft Injury
02:30	03:00	Duska Dragun Beyond HLA: Relevance of Other Targets
		<i>Coffee Break among Posters</i>
04:30	05:00	Stuart Greenstein Consensus Discussion #3: Definition of New Working Group: Clinico-Pathological Consensus for the Assessment of Time Zero Donor Biopsies
BANFF VASCULARIZED COMPOSITE ALLOGRAFTS (VCA) JUNIOR BALLROOM AB (MODERATORS: CINTHIA DRACHENBERG, ALTON FARRIS)		
Start	End	Description
01:00	01:05	Linda Cendales Welcome & Session Goals
01:05	01:33	Anil Chandraker Histologic Features of Antibody Mediated Rejection after Face Transplantation
01:33	02:03	Jean Kanitakis Graft Vasculopathy in the Skin After a Vascularized Composite Allograft
02:03	02:31	Adela Rambí Cardones Skin in Transplantation
02:31	02:59	Gerald Brandacher Expanding the Banff VCA Criteria
		<i>Coffee Break among Posters</i>
03:30	05:00	Group Discussion
CANADIAN PANCREAS GROUP BUSINESS MEETING ORCA		
Start	End	Description
01:00	5:00	Closed Meeting (Members only)

CST PLENARY: ID		
GRAND BALLROOM AB + PASSAGE (MODERATORS: ATUL HUMAR, ALISSA WRIGHT)		
Start	End	Description
01:00	01:30	Nazia Selzner New Therapies for HCV
01:30	02:00	Peter Stock Transplanting the HIV+ Patient (and HIV+/HCV+), The HOPE Act
02:00	02:30	Glen Westall Viral infection and Allograft Rejection in the Lung
02:30	03:00	Atul Humar Viral Infection and the Allograft Rejection (Non-Lung)
		<i>Coffee Break among Posters</i>
CST JOINT ETHICS & CRITICAL CARE SESSION: ISSUES IN DCD DONATION		
GRAND BALLROOM AB + PASSAGE (MODERATORS: REBECCA GREENBERG, ADRIAN ROBERTSON)		
Start	End	Description
03:30	03:55	Sonny Dhanani Death Determination in Organ Donation
03:55	04:20	Robert Sibbald Ethical Issues in DCD
04:20	04:45	Charlotte Harrison Pediatric DCD and Lessons Learned from Debating and Implementing a DCD Policy in a Pediatric Hospital
04:45	05:30	Panel Discussion
CST PHARMACIST GROUP BUSINESS MEETING & SESSION		
FINBACK		
Start	End	Description
03:30	04:15	Joseph Kim Immunosuppressant Exposure Variability
04:15	05:00	David Taber Medication Errors in Transplantation
05:00	05:45	Trana Hussaini Re-thinking Immunosuppression in Liver Transplantation: A Focus on Minimization
05:45	06:00	<i>Coffee Break</i>
06:00	07:30	Pharmacist Group Business Meeting (Members only)
TTS WOMEN IN TRANSPLANTATION NETWORKING SESSION		
PAVILLION BALLROOM CD		
Start	End	Description
05:00	06:00	The Transplantation Society – WiTS Networking
POSTER DISMANTLE		
GRAND BALLROOM CD		
Start	End	Description
07:00	07:30	<i>Thursday Poster Boards – Poster Dismantle</i>
EXHIBIT HALL DISMANTLE		
GRAND BALLROOM CD		
Start	End	Description
07:00	011:00	<i>Exhibition Dismantle</i>

JOINT POSTERS & EXHIBITS: AUTHOR PRESENTATIONS (THURS 9:30AM) GRAND BALLROOM CD
Alton Farris NK Cell Activation Characterizes Chronic Antibody Mediated Rejection
Catriona Mckenzie Oral nicotinamide to reduce nonmelanoma skin cancer in renal transplant recipients: a pilot Phase 2 randomized controlled trial
Daniel Fantus The impact of novel adenosine triphosphate-competitive inhibitors (TORKinibs) on alloimmunity and transplant survival
G. V. Ramesh Prasad Transplantation and the Nature of the Immune Self
Jessica Forcucci Grading Capillaritis (ptc) in Renal Transplant Rejection: Can Ancillary Studies Improve Interobserver Variability
Karishma Kak Patient Self-reported Adherence to and Perceptions towards Immunosuppressive Medications at the Outpatient Renal Transplant Clinic
Kosuke Masutani Temporal serum creatinine increase and exacerbation of tubulointerstitial inflammation in resolving polyomavirus BK nephropathy
Luis G. Hidalgo GENE EXPRESSION CHANGES IN NK CELLS FOLLOWING CD16 ACTIVATION - EVIDENCE FOR CD16 ENGAGEMENT IN BIOPSIES WITH ABMR
Luis G. Hidalgo MOLECULAR ASSESSMENT OF THE COGNATE EVENTS IN T CELL- AND ANTIBODY-MEDIATED REJECTION – TWO DIFFERENT CELLS WITH MANY KEY COMMON PROGRAMS
Meghan Kapp Endothelial Activation and Lymphangiogenesis in Humoral Rejection of Kidney Transplants
Naima Carter-Monroe DUAL LEUKOCYTE/ENDOTHELIAL STAIN FOR ASSESMENT OF ENDOCAPILLARY INFLAMMATION IN THE RENAL ALLOGRAFT
Nithya Krishnan CD45 Counts in Post Perfusion Biopsy Predicts AMR
Pallav Gupta Acute and Chronic calcineurin inhibitor toxicity in live renal allograft recipients: clinical and histological features
Patrick Luke First Canadian Experience with DCD Simultaneous Kidney Pancreas Transplantation
Ryan Rochon Rhabdomyolysis after Hand Assisted Laparoscopic Donor Nephrectomy: Our Centre's Experience
Stephen Quigley Acute Necrotizing Pancreatitis Following Living Kidney Donation - A Case Report and Systematic Review of the Literature.
Thomas Brian McGregor Right versus Left Laparoscopic Donor Nephrectomy : Initial 3 year Experience From a Single Centre Transplant Program.
Xiu Qing (Jenny) Wang Cell Type of the Tolerizing Inoculum Plays a Role in the Formation of Molecular Chimerism in Murine Neonatal Tolerance

JOINT POSTERS & EXHIBITS: AUTHOR PRESENTATIONS (THURS 3PM) GRAND BALLROOM CD	
Benjamin Adam	The NanoString gene expression platform is technically robust and feasible for routine formalin-fixed paraffin-embedded transplantation pathology applications
Carlos Cervera	Evaluation of qualitative and quantitative Epstein-Barr virus (EBV) DNA detection in whole blood at time of Post-transplant lymphoproliferative disorder (PTLD) diagnosis
Catherine Burton	Age of Clearance of Passive Maternal CMV IgG in Infants Awaiting Solid Organ Transplant
Christina Kaufman	Graft rejection in hand transplant recipients with grade 0 skin biopsy histology
Craig Hasilo	Inhibition of Neutrophil Migration Enhances Early Engraftment in a Nude Mouse Model of Human Islet Transplantation
Dale Lien	Combined use of extended release and regular release tacrolimus in a child with cystic fibrosis and high tacrolimus trough level variability post lung transplantation
Hongji Yang	Combination of Novel Anti-CD45RB and Anti-CD40 Chimeric Antibodies Promotes Operational Tolerance with a Distinct Signature of Immunoregulatory Cells in Cynomolgus Monkey Renal Allograft Recipients
Hyeon Joo Jeong	Immunophenotype of Inflammatory Cells in Isolated V-Lesion of Allograft Kidney
Jee-Young Han	Clinico-pathologic characteristics of C4d negative antibody mediated rejection in renal allografts
Jorge Malheiro	GRAFT PATHOLOGY AND DONOR-SPECIFIC DE NOVO ALLOSENSITIZATION IN THE NATURAL HISTORY OF KIDNEY TRANSPLANTATION: A CASE-CONTROL ANALYSIS
Julie Allard	PATIENTS', CAREGIVERS' AND RESEARCHERS' PERSPECTIVES ON RESEARCH PRIORITIES IN ORGAN TRANSPLANTATION IN CANADA.
Jutta Krista Preiksaitis	Residual risk of transfusion-acquired cytomegalovirus (CMV) infection in CMV seronegative solid organ transplant recipients receiving CMV seronegative organs and leukoreduced cellular blood products
Olusegun Famure	MEDICAL AND NON-MEDICAL PREDICTORS OF COMPLETING THE TRANSPLANT EVALUATION PROCESS IN END-STAGE RENAL DISEASE (ESRD) PATIENTS. – A SINGLE CENTRE STUDY
Roslyn Mannon	Understanding the Milieu of Brain Death: Donor Monocyte Chemoattractant Protein 1 (MCP-1) Predicts Recipient Allograft Function
Sunita Singh	The Epidemiology of Pancreta Discard: An SRTR Analysis
Tariq Aljohani	EBV-positive lymphoid infiltrate in a renal surveillance biopsy mimicking subclinical T-cell mediated rejection
Virginie Royal	Ecilizumab for the treatment of severe antibody-mediated rejection: a case report and review of the literature

JOINT POSTERS & EXHIBITS: AUTHOR PRESENTATIONS (THURS 6PM) GRAND BALLROOM CD	
Benjamin Adam	Internal and external validation of a molecular diagnostic for antibody-mediated rejection in routine formalin-fixed paraffin-embedded renal allograft biopsies
Christina Dörje	Does total inflammation in early kidney graft biopsies predict progression of fibrosis and transplant function at 1 year post-transplant?
Dayanand Deo	Renal Histogenomics: Gene fingerprint to predict Delayed Graft Function
Elizabeth Martinez	Acute Vascular Lesions in the Kidney Transplant and Relationship to Cellular and Antibody-Mediated Rejection (ABMR)
Erin Ready	Post-transplant lymphoproliferative disorder in adult kidney transplant patients: a British Columbia experience
G. V. Ramesh Prasad	TRANSPLANT TOURISM IS AN INDEPENDENT RISK FACTOR FOR LONG TERM KIDNEY ALLOGRAFT LOSS
Hanneke de Kort	Comparison of methods for assessment of peritubular capillary basement membrane multilayering (PTCBML)
Heounjeong Go	Refining the diagnostic criteria of transplant capillaropathy for chronic antibody-mediated rejection
Jan Ulrich Becker	Pathologists' individual approach to the diagnosis of Banff Borderline T-cell mediated rejection
Joseph Kim	Validation of Predictive Nomograms for Delayed Graft Function in Canadian Kidney Transplant Recipients
Julie Allard	Organ donation after cardiac death for a conscious patient: new ethical issues
Li-Zzu Lin	Primary hepatic angiosarcoma treated with living donor liver transplantation
Marie Wright	Long-term respiratory morbidity in recipients of pediatric solid organ transplants: a retrospective review.
Rajan Duggal	Clinicopathologic spectrum of plasma cell-rich acute rejection: An aggressive morphologic form of acute rejection
Ruth Sapir-Pichhadze	Kidney Transplant Outcomes following Alemtuzumab Induction and a Steroid-Free Protocol vs. rATG Induction and Maintenance Steroids
Seyed M Hosseini-Moghaddam	Antiviral Prophylaxis against Early-Onset Post-Transplant Lymphoproliferative Disease in Epstein-Barr Virus Seronegative Renal Transplants, Single Arm Cohort Study
Shaifali Sandal	Renal Resistance Measured during Pulsatile Perfusion and Long-Term Kidney Transplant Outcomes
Szu-Han Wang	Predictors of biliary leakage after T-tube removal in living donor liver transplantation recipients

JOINT POSTERS & EXHIBITS: AUTHOR PRESENTATIONS (THURS 6:30PM) GRAND BALLROOM CD
Alberto González-Almada Histologic Findings in Pre-transplant AT1Rab + ve Patients: Increase in Sub-intimal Fibrosis During Acute Rejection and in 12 mo. Protocol Renal Graft Biopsies.
C Deblais DIFFUSE, INTENSE, LINEAR (DIL) C4d GLOMERULAR CAPILLARY POSITIVITY IS A STRONG MARKER FOR THE DIAGNOSIS OF CHRONIC ANTIBODY MEDIATED REJECTION.
Erik Larsson Systematic morphological evaluation of consecutive protocol biopsies of the duodenal cuff in clinical pancreas transplantation
Farsad-Alexander Eskandary The prevalence of late HLA-DSA-positive antibody-mediated rejection in kidney transplant recipients and the diagnostic value of antibody properties: Results of a large prospective cross-sectional study
Istvan Mucsi Mental health and behavioral barriers to completing the pre-transplant evaluation
Istvan Mucsi African Canadian and Asian Canadian patients are less likely to have potential living donors when first presenting for evaluation: A single center experience
James Lan Clinical Relevance of Complement-Activating Donor-Specific Antibodies Identified by a Novel C3d Assay in Predicting Kidney Allograft Failure
Johan Molne Rejection patterns and a grading system for cervical biopsies after human uterus transplantation
Joseph Kahwaji Pathological Findings in HLA Sensitized Patients Treated with Everolimus: Interim Results
Joseph Kim Incidence, Risk Factors, and Clinical Outcomes of BK Viremia in the Modern Era of Kidney Transplantation
Kyla Naylor Frequency of Bone Mineral Density Testing in Adult Kidney Transplant Recipients
Marie-Chantal Fortin Patients' Perspectives on Cardiovascular Risk Factors after Kidney Transplantation
Michael Moser Early experience with machine cold perfusion of living donor kidneys
Nada Alachkar IgA nephropathy recurrence after kidney transplantation
Ngan Lam Gender Differences in Use of Prescription Narcotic Medications among Living Kidney Donors
Rhea Varughese A Single Centre's Lung Transplantation Experience for Pulmonary Graft versus Host Disease
Shigeo Hara Granular swollen epithelial cells in the kidney allograft: a marker for kidney allograft senescence?
Sunita Singh External Validation of Clinical Prediction Models of Patient and Graft Survival in a Canadian Cohort of Kidney Transplant Recipients

FRIDAY, OCTOBER 9, 2015

PUBLIC SOLICITATION AND DIRECTED ANONYMOUS DONATION SYMPOSIUM GRAND BALLROOM AB + PASSAGE (MODERATOR: STEVEN PARASKEVAS)		
Start	End	Description
07:00	08:00	Breakfast Symposium
BANFF SUMMARY PAVILLION BALLROOM D		
Start	End	Description
08:00	12:00	Banff Summary
CST LIVER CONCURRENT SESSION JUNIOR BALLROOM B (MODERATORS: IAN ALWAYN, MARKUS SELZNER)		
Start	End	Description
08:00	09:00	Sandy Feng Liver Transplantation for HCC-Milan, UCSF, TTV: Where do we go?
09:00	09:15	Karen Pineda-Solis "Functional" Warm Ischemia Time as a Predictor of Graft Failure and Biliary Complications.
09:15	09:30	Juan Echeverri Subnormothermic Ex-Vivo Liver Perfusion (SNEVLP) Reduces Endothelial Cell Damage and Bile Duct Injury after Pig Liver Transplantation with HBD Grafts
09:30	09:45	David Forner Donor Specific Antibodies in Liver Transplantation: Do Complement Fixing Antibodies Predict Outcomes?
09:45	10:00	Ahmed Alqallaf Correlation of Serum Creatinine-Based Equations With Radionuclide GFR in Candidates for Liver Transplantation
10:30	10:45	Nazia Selzner Debate: Is six months abstinence required for liver transplantation in patients with alcohol induced liver disease? PROS
10:45	11:00	James Shapiro Debate: Is six months abstinence required for liver transplantation in patients with alcohol induced liver disease? CONS
11:00	11:15	Juan Echeverri Live Donor Liver Transplantation with Older (>50years) vs Younger (<50years) Donors: Does Age Matter?
11:15	11:30	Trana Hussaini Immunosuppression practices in liver transplantation: A survey of North American Centres
11:30	11:45	Juan Echeverri Fast Track of Adult-to-Adult Live Donor Liver Transplant Recipients: Avoiding ICU Admission Reduces Complications and Post Transplant Hospital Stay
11:45	12:00	Ibrahim Al Hasan The Fate of the DCD Liver Follows the Kidney
CST LUNG CONCURRENT SESSION JUNIOR BALLROOM A (MODERATOR: LIANNE SINGER)		
Start	End	Description
08:00	08:45	Glen Westall Making Sense of Antibodies before and after Lung Transplantation
08:45	09:30	Jussi Tikkanen Antibodies in Lung Transplantation - What do we know and what can we do?
09:30	09:40	Alim Hirji Clinical Judgment Versus Lung Allocation Score in Predicting Waitlist Mortality
09:40	09:50	Nader Aboelnazar The Value of Hypoxic Pulmonary Vasoconstriction in Determining Lung Health During Ex-Vivo Lung Perfusion

09:50	10:00	Katie Kinaschuk Evolving strategies for Mechanical Circulatory Support in Bridging prior to Lung Transplantation
10:30	10:40	Sunita Mathur Persistent Skeletal Muscle Weakness And Atrophy After Lung Transplantation
10:40	10:50	Dale Lien Donor Specific Antibody (DSA) Associated With Significant Bilateral Upper Lobe Pleural Thickening And Lung Graft Dysfunction
CST-CSN JOINT KIDNEY-PANCREAS CONCURRENT SESSION		
PAVILLION BALLROOM C (MODERATORS: RAMESH PRASAD, JAG GILL)		
Start	End	Description
08:00	08:40	Hatem Amer Treasure in the Waste-Post Transplant Proteinuria
08:40	09:20	G. V. Ramesh Prasad Metabolic Syndrome, Chronic Kidney Disease, and Transplantation
09:20	10:00	Greg Knoll Post-Transplant Malignancy
10:30	10:40	Cecilia Kwok Caspase-8 has paradoxical function in ischemia-reperfusion injury versus transplantation due to differences in intracellular pH
10:40	10:50	Melanie Dieude The 20S proteasome activity within apoptotic nanovesicles controls immune responses to the allograft
10:50	11:00	Ryan Cunningham Epithelial-to-Mesenchymal transition as a mechanism for BK virus induced kidney fibrosis
11:00	11:10	Kevin Wen IgA Nephropathy: HLA Class II zero mismatch living donor kidney transplantation associated with increased recurrence and graft loss
11:10	11:20	Sunita Singh Is Delayed Graft Function in Simultaneous Kidney-Pancreas Transplant Recipients Associated with an Increased Risk of Pancreas Graft Failure?
11:20	11:30	Olusegun Famure Neighbourhood-level socioeconomic predictors for completing the assessment and progressing to kidney transplant among referred end-stage renal disease patients
11:30	11:40	Ye Su Loss of RIPK3 and Caspase-8 Enhance Intrinsic Apoptosis in Tubular Epithelial Cell (TEC) Death and Contributes to Kidney Ischemia Reperfusion Injury (IRI)
11:40	11:50	Michael Moser Protection of the transplant kidney from preservation injury by inhibition of matrix metalloproteinases
11:50	12:00	Tom Blydt-Hansen Urine metabolites as biomarkers for kidney antibody-mediated rejection
12:00	12:10	Gaurav Tripathi Genetic Predisposition to Interleukin-10 production influences Epstein-Barr Virus Reactivation after Renal Transplantation
CST DONATION CONCURRENT SESSION		
PAVILLION AB (MODERATOR: ADRIAN ROBERTSON)		
Start	End	Description
08:30	09:15	Adrian Robertson Space and Time of Discussions with Donor Families.
09:15	10:00	Sonny Dhanani Donation Physician Specialists
10:30	11:00	Robert Sibbald Consent to Donation is Trickier Than it Looks

11:00	11:10	Michael Moser What messages are potential donor families receiving from the Internet about Donation after Cardiac Death?
11:10	11:20	Daniel Buchman Organ Donation after Physician Assisted Death in Canada: Ethical and Legal Issues
11:20	11:30	Elizabeth Hendren Where should the public learn about organ donation: Health Care Settings or the DMV?
11:30	11:40	Samantha Anthony Family Veto in Organ Donation
11:40	11:50	Caren Rose The number of HIV-infected potential deceased organ donors in Canada
11:50	12:00	Maeghan Toews Family Override of Consent for Organ Donation: The Disconnect between Law and Policy
12:00	12:10	Sonny Dhanani Increase In Neurologic Determination Of Death (NDD) Organ Donation In The Donation After Cardiac Death (DCD) Era. The Ontario Experience.
CST HEART CONCURRENT SESSION		
JUNIOR BALLROOM C (MODERATORS: LORI WEST, BRUCE MCMANUS)		
Start	End	Description
09:00	09:30	Bruce McManus Biomarkers for Monitoring Cardiac Allograft Rejection: Ready for Prime Time?
09:30	10:00	Michael Mengel Antibody Mediated Rejection in Heart Transplantation: What Is The Diagnostic Gold Standard in 2015?
10:30	10:42	Xusheng Zhang Prolongation of Cardiac Allograft Survival through Targeted Silencing of TLR Adaptor Genes using Mannose Liposome
10:42	10:54	Medhat Askar Association of Complement Activation Product C5a with Allosensitization in Patients with Ventricular Assist Devices
10:54	11:06	Ye Su Intracellular OPN is an essential protective factor to cardiac endothelial cell and the long term heart graft survival
11:06	11:18	Stanley Araujo Reactivation Chagoma in Heart Transplanted patients
11:18	11:30	Mark Kearns Donor Death and Cardiac Injury After Withdrawal of Life Support in a Rodent DCD Protocol
11:30	11:42	Bruce Motyka Tolerance to A-Antigen Following ABO-Incompatible Heart Transplantation (HTx) in a Blood Group A-Transgenic Mouse Model
11:42	11:54	Cecilia Kwok CD4+ T-cell mediated microvascular endothelial cell death in a chronic cardiac allograft rejection model involves RIPK3
11:54	12:06	Romy Hoeppli Tailoring Homing Capacity of Thymic Regulatory T Cells by Expansion in Cytokine-enriched Culture Conditions
